## HECC CROSS-REGISTRATION

The Higher Education Council of Columbus (HECC) is an association of nine colleges and universities in Franklin County, established to develop programs which benefit its member institutions and the community at large.

As a service to students, the HECC member institutions have approved a system of cross-registration for regularly-enrolled, full-time undergraduate students at the following colleges and universities during Autumn, Winter and Spring terms only:

### Capital University

The Columbus College of Art and Design  
 Columbus State Community College  
 DeVry Institute of Technology  
 Franklin University  
 Ohio Dominican College  
 The Ohio State University  
 Otterbein College  
 Pontifical College Josephinum

Cross-registration is limited to one enrichment course per term, with a maximum of three cross-registered courses during a student's degree program. To participate in cross-registration, a Columbus State Community College student must be a full-time student and in good academic standing. The Columbus State student does not pay tuition to the host institution, but may be charged other enrollment-related fees, such as laboratory or parking fees. A grade for the course taken at a host institution will be posted only on the student's Columbus State transcript.

A Columbus State student interested in cross-registering for a course must obtain approval from the Registrar, 101 Madison Hall, his/her advisor, and from the host institution's registrar. It is the student's responsibility to make certain that the host institution's calendar, course schedule, course content, and credit are compatible with his/her goals and Columbus State Community College requirements. Cross Registrations are generally accepted beginning one week before classes begin at the host institution.

FOR MORE INFORMATION, please contact the Registrar, Records and Registration, 101 Madison Hall.
