

# COLUMBUS STATE COMMUNITY COLLEGE HEALTH RECORD

## Tuberculosis Testing

Name: \_\_\_\_\_

Cougar ID #: \_\_\_\_\_

### Tuberculosis Testing

A TB Skin Test is required **annually** to participate in health related programs. This consists of a small needle being used to put some testing material, called tuberculin, under the skin. In 2-3 days, you return to the health care worker who will check to see if there is a reaction to the test. Tb tine tests are not acceptable per state regulations. If the student recently received an MMR or varicella vaccine, the tuberculosis test must be postponed until at least four to six weeks after the MMR.

#### TB Skin Test

Date given: \_\_\_\_\_

Date read: \_\_\_\_\_

Result: \_\_\_\_\_ mm.

Read by: \_\_\_\_\_

**If this test or a previous test is positive:** Submit documentation of positive PPD and a negative chest x-ray report from within the past five years. If your previous chest x-ray or positive PPD has been more than a year ago, please complete an Annual Health Evaluation form found at <http://csc.edu/Students/FormsPDF/health/Annual.pdf>.

**Please note: QFT Gold or T Spot are acceptable in place of a one or two step Tuberculosis skin test and must be current; must include lab print out.**
