4. Dr. Harrison called attention to the Board Calendar of Events for 2011 which was distributed earlier outlining the schedule for 2011 Board and Committee of the Whole meetings, commencement dates and other significant events.

5. Dr. Harrison was the keynote speaker for Fall In-Service Day held on October 27, 2010. Some of the highlights of his address touched on:

   a) Partnership opportunities for the college, and some of the partnerships that are already in place;

   b) The college community's commitment to stewardship;

   c) The strategic and environmental investments that the Board has approved and the college has already made possible;

   d) He noted that Columbus State has been recognized for having one of the top 50 climate action plans in the Presidents Climate Commitment initiative.

6. The president explained that the college is experiencing growing pains in relation to infrastructure, and master planning will help us address some of the strains from our growth.
7. The president gave some background on the college’s AQIP accreditation process and noted that originally, the process did not get off to a good start partially due to communication issues. However, the college is committed to continuous improvement through the various projects that have been undertaken, and which will be the framework that will allow us to better document the work we are doing.

8. Dr. Harrison highlighted some of the work ahead including master planning which will later be the framework for the strategic planning.

9. He discussed forming a college planning forum which will meet a couple times per quarter to put a process in place to finish the work that has been started, and then going on to the next project. This will allow new people to get involved to hopefully channel a more collaborative spirit. The planning forum will come together soon and not last forever—probably a two-year project. This will then provide a good foundation for a formal strategic plan to build on the work that is already happening.
