The Gahanna high school is opening a new facility in conjunction with the business community. CSCC now offers classes at the present high school in the evenings. The college has been invited to partner with them in this new facility to offer programs instead of just leasing space. The president recommends that the college give this partnership serious consideration.

The state budget impacts the college in many ways, and there is the potential for certain programs in which we are a partner to be cut, particularly in the early college programs.

Columbus State was awarded a $2 million Title III grant by the Department of Education effective as of October, 2009, with the primary goal of increasing student success with greater retention rates.

Some program changes at the Federal level having impact on the College are: 1. Direct lending for student loans will begin in 2010 instead of going through lenders; 2. The post 911 GI Bill goes into effect August 1st of this year.

Details were given on President Obama’s announcement regarding a proposal of $12 billion to support community colleges in order to increase the number of college degrees within the next ten years. Four funds will be established.

Senator Brown has introduced the Student Success Act, based on the “Achieving the Dream” initiative. There are five colleges involved in this program. The goal is to follow all at-risk students through the process of completion, with the hope of retaining them until graduation.

Upcoming Events: Summer Quarter Graduation – September 11; Taste the Future – September 15; Trustees Conference – September 17; OACC Fall Conference – September 17 & 18.
