PRESIDENT'S REPORT:

Dr. M. Valeriana Moeller, President, reported on the following items:

(1) The latest sculpture has been completed and is located on the west side of Cleveland Avenue. The unveiling will be sometime before the end of the quarter.

(2) The Center for Workforce Development was officially opened on July 20th at a ribbon-cutting ceremony attended by city officials. It was noted that it opened on time and under budget.

(3) The new bookstore or DX Center which is the Discovery Exchange has garnered a lot of excitement on campus as well as in the community. The ribbon cutting is scheduled for November. A notice will be sent out to the Board members on the date when it has been confirmed.

Trustee Meade would like to get a sense of what the traffic patterns are going to be on Cleveland Avenue and the pedestrian access to both sides before the DX Building opens. She would also like to get some assurances from our traffic management standpoint that everything is being done to make that smooth, easy and safe. She suggested that the college form a partnership with the Discovery District.

Dr. Moeller stated that we have been discuss this with the City of Columbus on numerous occasions and we are hoping that their engineers will perhaps place a light there.
Terri Gehr explained that CCAD is putting in an island to on Cleveland Avenue as a traffic slow-down mechanism and the Discovery District has been working the Public Safety Director for over two years on bring awareness to this issue. Terri will keep the Board updated on this issue as things progress.

(4) Jessica Thomas, Scott Nichols and Karen Eichenberger were the Staff Employees of the Month for July, August and September respectively.

(5) During 2005 - 2006, the office of Financial Aid processed over $100 million dollars in student loans, grants and scholarship funding for one academic year.

(6) The 2006 Dental Hygiene class is the first to have a 100% pass rate in both clinical and national boards.

(7) Columbus State was awarded $220,000 to fund the talent search program which is one of the programs in TRIO. This program recruits students from the high schools encouraging them to go to college.

(8) Columbus State will be receiving funding in the amount of $70,000 from Alliance Data for Fantastic Fridays which is a program for science for the middle schools to high schools here on Fridays allowing the students to conduct experiments This program serves from 1,000 to 1,500 students a year. We have received correspondence from the teachers and principals saying that this program that has helped the students with their proficiency tests.

(9) We received an additional $75,000 from the Ohio Tobacco Fund for the Somali community for the Smokeout Project for the prevention and cessation of the smoking addiction.

(10) Congratulations are in order to our Institutional Advancement department. The National Council of Marketing and Public Relations will be awarding them either gold, silver or bronze medals in the categories for our annual reports, handbooks, newsletters; radio ad - series, video ad/PSA - series and electronic newsletters that are put out on campus. The type of award will be revealed at the conference next month.

(11) Jillian Egle and Eric Hoerle are the recipients of the 2006 Coca-Cola two-year scholarship which is a $1,000 award.

(12) The Columbus State Development Foundation Board of Directors award yearly $50,000 to $55,000 in mini grants which are in support of various departments.
Every year, a national ranking is published for community colleges done independently based on data submitted to the Federal Government. Columbus State ranked in the top 100 for associate degrees. We ranked #39 in the country for non-minorities in all discipline; #72 for the Black community; #46 in Business Management, Marketing & Related Support Services; #22 for Engineering and related technologies/technicians and #35 in the Health Professions and related clinical sciences. Columbus State is ranked #2 in the State of Ohio, Cuyahoga Community College being #1.

Columbus State raised over $415,000 in sales and donor contributions from the Taste the Future event. We also received a gift from the Limited Brands in the amount of $50,000 per year for five years.

For the Fall enrollment, we are 22,723 students, which is not the final count. We still have to go through the 14th day. Compared to the same time last, the enrollment is 2.2% higher.

Columbus State is in preparation for the Pandemic Flu in the case of that emergency. The Trustees were asked to share any information they come across on this issue with the college. We are planning to conduct preventive measures by offering the flu shot on campus for employees and having hand sanitizers around, especially in the food areas and do whatever we can to minimize the spread of the virus.

We are in the process of moving forward with our planning for the Delaware County project. The architects and the committee have been working, and we have had people from our campus visiting other campus buildings so that we can have at least a level one recertification. Dr. Moeller and Dr. Adkins met with the Superintendent of the Delaware Area Career Center to discuss how we can partner with them in creating a seamless type of curriculum and not duplicate the programs they have in place. It was announced that Dr. Adkins is now on the Board of United Way in Delaware County.

We have used Union County’s firing range for our Law Enforcement program. In August, they closed the range. Union County wants to partner with us to create a education center for public services such as the fire and police and EMS. They want Columbus State to do that training and therefore, want us to build a facility on the county’s lot. Next month, we are meeting with them to discuss the potential relationship.

There have been information sessions regarding a potential partnership between Columbus State and Ohio University with Pickaway County. There is a possibility that classes would be offered in the Winter or Spring quarters. And, the Ohio Board of Regents has authorized this pilot program.
(20) Columbus State hosted a legislative briefing for the District Senators and Representatives on July 26. The meeting was very positive, and the two items that came up again were the Transfer and Articulation and the STEM. The question was whether the Transfer Agreement Guidelines were moving forward in a timely manner. The STEM initiative is to encourage more students to consider entering into studies in Science Technology Engineering and Math and how to make these careers more attractive.

NEW BUSINESS:

Chairperson Finn noted that there was an addition to the agenda under new business which was the item on the President’s salary adjustment. This item was discussed at great length during the Committee of the Whole.

OACC - Trustee Meade reported that the Attorney General and the Auditors have recommended that OACC amend their By-Laws. The By-Laws and the Agreement to Organize as a membership group are not in sync. Therefore a proposal was made to change those By-Laws rather than going with the Agreement to Create.

We need to indicate to the OACC that want their Board to pursue these changes in the By-Laws and they will take that under advisement and come back to us.

The revision changes how we amend the By-Laws and it now requires a very onerous process and the amendment will establish a super majority. The minimum number of community colleges that are required will be twelve.

**Member Meade moved**, Member Edgar seconded, to approve the revision to the Agreement to Create a Regional Council of Governments of Community, State Community, and Technical Colleges as presented at the Governing Board meeting on May 5, 2006 of the Ohio Association of Community Colleges.

AQIP - Dr. Moeller reported that, whereas, Columbus State was formerly under the PEAQ model of Accreditation, we are now under the Academic Quality Improvement Program (AQIP) model. Dr. Coleman and the steering committed that she chairs has conducted a survey which is submitted directly to the AQIP team. The next step is the Conversation Day which is being put together by the AQIP committee and the In Service Day committee. The entire campus and the Board members are invited to attend on October 25, at the Convention Center from 8:00 a.m. to 3:30 p.m. A second Conversation Day will also be held for those employees/students who can only attend in the evening. The next step in the project is to identify the project that we are going to have for improvement and we have identify the project, put a team together to work on this project and prepare a strategy for the action
workbook. In March there will be a strategy forum in Chicago and Dr. Moeller and one of the Trustees are invited to attend to work on this project with other colleges.

Strategic Planning - A report was put together and distributed to the Board consisting of the raw data collected at the Board work session in June. The report outlines the strategic direction to take and what the focus areas should be and some possible. The next steps would be to form an internal committee to work on putting together the plan based on the strategic directions for the next 2 - 5 years. The Board gave their permission to proceed with the recommended strategic plan as outlined.

President’s Salary Adjustment -
**Member Edgar moved**, Member Mead second that the President’s current salary be increased by four and a quarter percent (4.25%) effective July 1, 2006, plus a five hundred dollar one-time payment to support the cost of health care.
