PRESIDENT'S REPORT:

Dr. M. Valeriana Moeller, President, reported on the following items:

(1) Columbus State Community College has been in the news recently to include the February issue of “Columbus CEO” magazine featuring an article on Educating Workers; as well as the January issue of “Smart Business Columbus” listing the 100 most influential business and civic leaders listing Trustee Paula Inniss and CSCC President, Val Moeller.

(2) The President introduced Timeka Rashid from the audience, the new Director of Student Activities who came onboard in January. Timeka served as assistant director of student affairs at OSU Newark-Central Ohio Technical College.

(3) Columbus State had Yolanda King on campus for the Martin Luther King Day program which was very well attended.

(4) Children’s Hunger Alliance is a finalist in the 2006 Integrity Awards; and Trustee Dolan who is the CEO was honored as a “Stellar Performer” for exemplary leadership.

(5) CAHIIM has awarded Columbus State continuing accreditation to the Health Information Management Associate Degree program. Columbus State was also granted continued full accreditation for the Veterinary Technology program.

(6) Columbus State has again received an “A” rating from Standard & Poors for its strong liquidity of unrestricted net assets, strong operating performance on a full accrual basis; overall enrollment growth over the last 6 years; modest debt burden with no new debt plans; and the college’s niche as the only community college in one of the strongest economic areas in Ohio.

(7) Last year, the Institutional Advancement department received regional awards by NCMPR. They are now national finalists for the categories of TV Single Ads and the newsletter. The President will advise the Board at the next meeting whether they bring home gold, silver or bronze.
(8) Thomas Shanahan, professor in the Paralegal Studies department, was recognized by the Columbus Bar Foundation for 18 years of service to the Homeless Project providing free legal services to the homeless.

(9) Jonathan Keuhnle, who was the valedictorian at the last commencement ceremonies, received the Ohio Mathematics Association of Two-year Colleges Kenneth Cummins Scholarship. Jonathan graduated top of his class with a 4.0 GPA.

(10) Thelma Bucy and Susan Nault were recognized as Employees of the Month for December and January respectively.

(11) On January 22, 2007, the Governor met with the presidents of Ohio colleges to focus on three topics: (1) access and student success hoping to increase enrollment by 230,000 by 2017, and to increase the student success rate by 20% by 2017; (2) workforce development; and bridging shortages in critical skills such as health care; and (3) research and innovation--attracting Federal dollars in research and determining the measure of success.

(12) There was discussion on some of the priorities for Ohio community colleges for the FY08-09 biennium. One point of discussion was how to create a system that will allow for stackable certificates so that there is no loss of money due to transfers to four-year institutions. It was also noted that the legislation needs to understand that we do produce graduates that meet the STEM2 discipline. Presently, there are 18,000 students in a quarter enrolled in what would be called a STEM discipline. Dr. Moeller advised that she will put together what is considered to be the “10 Hottest Jobs” for the Board to review.

It was announced that March 14th, is being designated as “One Voice” day, an OACC-coordinated advocacy event involving the students. The President asked the Trustees to advise her of their interest to attend.

(13) There have been discussions in the past about redefining the various service districts in a different way. As of now, Columbus State’s service districts include Franklin; Delaware; Union; Madison; and Pickaway. In other words, the geographic boundaries that are now in place may need to be changed or removed.

(14) Winter enrollment at Columbus State, as of January 17, 2007, has increased slightly--headcount by .02% and FTE by 1.42%.
AQIP

Dr. Deborah Coleman gave a brief update on the status of the AQIP improvement process and the various stages. A status report was distributed to each Board member with a rundown of the major activities, the participation and outcome.

Dr. Coleman explained that they are now preparing for the AQIP Strategy Forum. The college will be sending a team of twelve to Chicago to work with teams from nine other colleges. She noted that Dr. Moeller and a Trustee from the Board must also be in attendance. Dr. Coleman announced that Trustee Susanne Edgar had already volunteered to attend.

OLD BUSINESS

There was no old business to come before the Board

NEW BUSINESS:

(1) OACC Delegate and Alternate

The Ohio Association of Community Colleges (OACC) is the statewide organization composed of the presidents and trustees of Ohio’s two-year colleges. Voting members consist of one president and one trustee from each institution.

The President noted that Trustee Mead is currently serving as Columbus State’s OACC delegate and Trustee Antonoplos is serving as the alternate. Both agreed to continue to serve in the same capacity for an additional term.

(2) Compact 2012

The Compact is about bringing together the educational sector, the legislative sector and the business community in a partnership to plan together for Ohio’s future and economic development. The Compact is expected to have clearly stated goals with measurable outcomes to include deliverables from higher education, state government and the business community. The goal is to have the Compact completed by the end of January, 2007.
(3) Board Retreat

The Board of Trustees held a retreat on January 12, 2007, with the primary purpose being to develop a strategy for the Board as a whole through a strategic planning process. It was noted that the pillars of Columbus State’s strategic position are quality, affordability and convenience.

In the past, the Trustees have indicated that they would like to meet with other boards. Dr. Moeller suggested that having the Chair of the Delaware County Library Board attend one of our Board meetings. A number of topics that were addressed at the Retreat are in the process of being looked at, and time will be scheduled throughout the year to address these topics.

The Trustees were asked to review the Board Calendar listing various college events during 2007 and to sign up for the event(s) they would like to attend so that there will be Board representation. The members were asked to Fax back their selections to the President’s office.

Trustee Antonoplos requested that the agenda be adjusted to allow for the Public Participation portion of the meeting before continuing with the remainder of the new business. It was agreed.

PUBLIC PARTICIPATION:

The following individuals addressed the Board:

(1) Steve Abbott, a faculty member in the Communications Skills Department stated that he was there representing the faculty union on their concerns that, because of the design of the AQIP process and the scheduling of the meetings, faculty participation has been discouraged and curtailed. Due to schedules, few faculty have been able to participate in the action teams. The result has been that there has been a continuing struggle to keep the issues that were pinpointed during the survey from disappearing such as the issue of full-time to part-time faculty.

He brought with him an updated version of the Ohio Administrative Code, that states that, a minimum of 60% of the curriculum should be taught by faculty members who devote full time to teaching and administrative responsibilities. He advised that only 35% of CSCC’s instruction is being handled by full-time faculty, and he feels that this important issue may not be addressed by the AQIP process.

In response, Dr. Coleman advised that finding ways to get maximum participation of all employees has been a priority, and reliance upon faculty representation within the steering committee was their guid in scheduling these meetings. She also explained that they were working against a deadline to complete the workbook for the strategy forum. However, they would still like to have more faculty participation if possible. It was suggested looking at having the meetings on Saturdays or evening hours. Dr. Coleman will look into other options to increase faculty involvement.
(2) Patrick Kendig, Grant Martin and Scott Shambaugh, CSCC students, addressed the Board regarding the college’s Athletic Department, the baseball team in particular, and their concerns regarding problems within the department that the administration has not addressed.

The President commented that there were some issues regarding the baseball coaching situation, but measures have been taken in securing a new baseball coach and that the program is going forward. They will continue to look into all of the sports programs and report back to the Board on the steps being taken.

POSITION TITLE

Six Full-Time Faculty – New positions.

RATIONALE FOR POSITIONS

Based on the student enrollment in 2001 (17,000 students), it was agreed to hire 48 new faculty over the next three years to maintain the 40/60 ratio of full-time to part-time faculty. These positions were to be distributed at a rate of 16 per year for the next three years. However, the next year and each year thereafter Columbus State experienced diminishing state funds and a fluctuation of enrollment. In fulfilling the plan, we added 44 faculty (16, 8, 8, 4, 8) since Autumn 2001.

Beginning Autumn 2001, the Associate degrees in Applied Science in Business Management and Associate in Arts have been offered at the Dublin and Westerville off-campus sites. Since that time, enrollment in off-campus sites has increased 25 percent. In comparison to last year’s Autumn Quarter 2005 enrollment, distance education has experienced a significant increase of 18 percent for Autumn Quarter 2006. Columbus State’s enrollment figure for Autumn Quarter 2006 was 22,745 students, which is an increase of 3.32 percent. Given the course offerings at various locations and the increase in enrollment, six new faculty positions are requested for Autumn Quarter 2007.
