This room is equipped with a document camera that captures video that the projector can display on the screen.

To use this equipment, you must first turn on the projector and select the document camera option on the Extron wall panel.

Next, power on the camera by pressing the power button ... indicated by the red light.

The camera can be zoomed in or out by adjusting turning the knob at the side. Pressing the button on this end will automatically focus the image.

**Power Button**
- The light is red when the camera is off.
  - Press once to turn on.
- Light changes blue when camera is on.
  - Press and hold until camera turns off.

**Input Selector**
- Be sure this the bottom option is selected.

**Brightness Controls**
- The left button increases brightness of image.
- The right button decreases brightness of image.

If you require technical support or to report a problem with this equipment, please phone the help desk at: **287-5050**.
