April Newsletter

Meet our new teacher!!!!

Some students interviewed our new teacher last week to find out more about him. They learned that he is from Mauritania in West Africa. Not only is he a teacher, but he is a student as well, working on earning his MBA. They learned that he is funny, nice, cool, and he knows how to play soccer, tag, and sharks and minnows. Welcome to Providence Glen, Mr. Ahmed!!!

Field Trip to COSI

We spent an exciting day at COSI on April 13th. We started off our day participating in a workshop called “Garbology”, where we learned all about recycling. After a break for lunch, we were free to explore the many rooms and exhibits with our teachers. We ended the day watching the 3D movie “Wild Ocean”. It was an excellent day of fun and learning!!

The Ocean Room!!!

Mr. Ahmed enjoyed his first visit to COSI with Omar, Ridwan, Naseema, and Muna. All of the students managed to stay dry during this visit to The Ocean Room at COSI. Students also visited an interesting exhibit with hundreds of real frogs from all over the world, and a few kids even found time to ride the High Wire Unicycle.
Student Awards

Student of the Week

To become student of the week, I always completed my work, I didn’t play when it was time to learn, and I was respectful to my teacher. I also helped other students. Everyone was so proud of me that they gave me lots of candy. I hope I can get Student of the Month and get on the Honor Roll. I need to work very hard!!

By Omar Dolal

Student Most Improved

I was the most improved student this month. I worked very hard, I listened to my teacher, and I got all my homework done. That is how I became the Most Improved Student. Miss Bri helped me to be the most improved student. Thank you Miss Bri. I am proud of you!!

Student of the Month

My advice to become Student of the Month is to “never think down on yourself, think about your goal, and what you can do to improve.” I was quiet in class, I became more organized, I didn’t get distracted by other people’s shenanigans, and I did extra work that others would not do.

By Khadija Hersi

Final Thoughts

- Naseema Awil, Ayub Mohamed and Yasmin have also won awards recently. Keep up the good work!!
- Happy 30th birthday Ms. Bri!!
- Program resumes on April 20th.

Congratulations!!!!
