

JOIN OUR TEAM!

The Battery Workforce Challenge team is part of a brand-new Advanced Vehicle Technology Competition, competing against 11 other collegiate teams to design, build, and integrate a battery pack for a battery electric vehicle.

BWC is a multidisciplinary competition, and engages participants in:

- Advanced EV diagnostics and servicing
- Li-ion battery testing and modeling
- Communications and Graphic Design
- Engineering Fundamentals
- Battery High Voltage System Design
- Advanced STEM Coursework Application
- Technician integration experience

Buckeye BattChallenge meets at the Center for Automotive Research (CAR):

Sundays from 12-3pm

- Conference Room 210

Tuesdays from 5:30-8pm

- Classroom 198

Year 1: 2nd Place Overall
