

Lab statement:

The Health and Human Services Division maintain instructional labs that require safe practices and proper equipment oversight. Students are not permitted in lab containing sharps, gasses or sensitive equipment unless faculty or staff members are present.

Lab that do not contain these items are available to students without a faculty or staff member present. These labs include Computer, Early Childhood, and ASL labs. All other labs require a faculty or staff member present during student use.

Open lab hours are to be established so that faculty or staff members can monitor student use of these instructional labs. The Supervising faculty or staff members must be skilled in the equipment that will be utilized by the students within the lab setting.
