

Associate of Science, Anthropological Sciences

Bachelor's Degree Transfer Major

2018–2019

DESCRIPTION:

The Associate of Science degree is designed to satisfy the first two years of a bachelor's degree in majors that require advanced math or science. Formal agreements have been made with colleges and universities which allow for coursework taken in the Associate of Science degree program at Columbus State to transfer and apply to a bachelor's degree.

The Associate of Science degree Anthropological Science transfer major is the study of what makes us human. Anthropologists take a broad approach to understanding the many different aspects of the human experience. They consider the past, what makes up our biological bodies and genetics, comparisons with other animals, and interaction of people in social relationships. When trying to understand economic, health, education, law, and policy issues, they keep in mind what they know about biology, culture, types of communication, and how humans lived in the past.

ADMISSION REQUIREMENTS:

Students may begin this degree during any semester upon admission to the college. Eligibility for specific courses will be determined by evaluation of ACT or SAT scores, previous college credits, and Columbus State placement testing results (if required). Course descriptions and prerequisites are outlined in the Columbus State catalog at <http://www.csc.edu/academics/catalog/>.

ONGOING REQUIREMENTS:

All students must satisfactorily complete at least 61 credit hours of approved courses (a minimum of 20 credit hours must be completed at Columbus State) with an overall grade point average of 2.0 or better for all college-level courses completed at Columbus State. Consult with an Arts and Sciences Academic Advisor for Columbus State degree and graduation planning, assistance with developing and achieving academic goals, and information about transfer resources. Students should research program and admission requirements for their specific intended four-year institution and major early in their college career.

OPPORTUNITIES FOR GRADUATES:

Transfer:

The Associate of Science degree Anthropological Sciences transfer major is designed for students who are planning to transfer to a four-year college or university with the goal of completing a Bachelor of Science degree in Anthropological Sciences. Graduating with the Associate of Science degree includes completion of the Ohio Transfer Module. As a result, Associate of Science graduates have fulfilled most of their general education requirements and once admitted to the four-year program, will be focused on upper-level major courses.
