

Civil Engineering Technology Associate of Applied Science (A.A.S.)

2018–2019

DESCRIPTION:

The Civil Engineering Technology A.A.S. degree provides a basis for entry-level careers in all phases of the construction continuum: planning, design, construction, and operations. The Associate of Applied Science is designed as a terminal degree providing those skills necessary for immediate employment. In addition to providing entry-level positions, the degree provides opportunities for individuals seeking career changes, continuing education, and skills enhancement. The Civil Engineering Technology A.A.S. degree is preparation for immediate, productive employment. For more information, see csc.edu/civil.

ADMISSION REQUIREMENTS:

This is a non-selective, open-admission program. Students may start any semester.

ONGOING REQUIREMENTS:

Students must maintain minimum overall GPA required by the College.

OPPORTUNITIES FOR GRADUATES:

Career:

Program graduates are prepared to work for either private or governmental segments of the construction industry requiring civil engineering technicians. Specific employment positions include manual or computer assisted (CAD) construction drawing and contract document preparation for commercial, heavy and industrial/institutional projects, construction inspection, survey crew operations, and construction material quality control and quality assurance.
