

## Hospitality Management: Culinary Apprenticeship Associate of Applied Science (A.A.S.)

2018–2019

### DESCRIPTION:

The Culinary Apprenticeship A.A.S degree is offered in cooperation with the American Culinary Federation Columbus Chapter. It includes the theory-related classroom instruction and on-the-job training required for the National Apprenticeship Training Program of the American Culinary Federation (ACF). The Columbus State program is accredited by the American Culinary Federation Foundation Accrediting Commission. Program graduates qualify as, at minimum, Certified Culinarians through the ACF. In addition, the graduate, upon successfully completing the American Culinary Federation (ACF) national written and practical exams, will qualify as a Certified Sous Chef (CSC). For more information, see [csc.edu/hospitality](http://csc.edu/hospitality).

### ADMISSION REQUIREMENTS:

This is a non-selective, open-admission program. A supplemental application is required by the department with a March 1 deadline for a Summer Semester start. Applicants must complete program prerequisites: HOSP 1101, HOSP 1122/HOSP1106, HOSP 1107, MATH 1104, COLS 1100, HNTR 1153, HOSP 1109, ENGL 1100, and GEOL 1101.

### ONGOING REQUIREMENTS:

Students selected for the apprenticeship program will interview with prospective employers; however, work placement cannot be guaranteed by the college or the ACF Columbus Chapter. While employed, the apprentices attend classes at Columbus State one full day each week to work toward the Associate of Applied Science degree. Summer financial aid eligibility is recommended.

### OPPORTUNITIES FOR GRADUATES:

#### Career:

Culinary apprentices are employed for on-the-job training under a professional chef in restaurants, clubs, hotels, or catering businesses. The Hospitality Management programs provide quality learning experiences to enhance initial employment opportunities and improve technical and supervisory skills for career advancement in food service, lodging, and tourism. Most job opportunities for chefs and head cooks are expected to be in food services, including restaurants. Job opportunities also will result from the need to replace workers who leave the occupation. Candidates can expect strong competition for jobs at upscale restaurants, hotels, and casinos, where the pay is typically highest.

#### Transfer:

The Culinary A.A.S. degree may be applied to a Bachelor of Science in Applied Management or a Bachelor of Science in Agriculture, Culinary Science. Students typically matriculate to The Ohio State University or Franklin University.

**DEGREE REQUIREMENTS (HOSPITALITY MANAGEMENT: CULINARY APPRENTICESHIP A.A.S.):**
