

Facilities Maintenance: Carpentry Module Certificate

2018–2019

DESCRIPTION:

This certificate program prepares students for employment as entry-level maintenance workers. The program can be completed in as little as three semesters. Since the certificate shares coursework with the associate degree program, graduates have the options of immediately entering the workforce, continuing on at Columbus State to complete the Associate Degree in Facilities Maintenance, or doing both, now or in the future.

The Module Certificates are a great way for students to focus on a single skill set and earn a college certificate. In combination, the modules can be applied towards the Facilities Maintenance Certificate program or the Facilities Maintenance Associates Degree program. In local industry, employers and employees both can benefit from these modules as a method to cross-train current workers to build or enhance additional skill sets. For more information, see csc.edu/sktr.

ADMISSION REQUIREMENTS:

This is a non-selective, open-admission program. Students may begin this degree during any semester upon admission to the college.

ONGOING REQUIREMENTS:

Students must maintain minimum GPA required by the College.

OPPORTUNITIES FOR GRADUATES:

Career:

Some common job titles include Construction Carpenter, and Rough Carpenter.

Transfer:

Students who complete the Carpentry Certificate will have most of the courses apply to the A.A.S. degree in Facilities Maintenance.

FACILITIES REQUIREMENTS (FACILITIES MAINTENANCE: CARPENTRY MODULE CERTIFICATE):**FIRST SEMESTER**

Course	Term	Credits	Milestones/Progress Check
