

SOUTHPARK

Summer 2017

Student Awards

Southpark Afterschool finished off the year with a celebration of our students' achievements and growth in character throughout the year. Several of our students made the High Honor and Honor Roll at their schools. Others received awards for perfect attendance and student of the month. All our students showed that they made progress in reading and math according to their report cards.

We wanted to show the students how much we value them, so we presented them each with an award to highlight a strength they have or something we really enjoy about them. Pictured on the left are Abdurahman, who received an award for most bashful, and Farhia, who received one for being the happiest student.

ESLASC 5K/Mile Race

Southpark students made a great showing in the annual ESLASC 5k! Ibrahim and Faysal finished in first and third place out of all third graders (pictured top-left), Muna finished in first for fourth grade, and Abdi, Ibrahim (left-center), and Fatma (bottom left) came in first, second, and third for the fifth graders.

All students that attended were provided with a chip that was attached to their bib to keep track of their time as they ran the one mile race. Once the race was completed, they were given healthy snacks, face-painters gave them the design of their choice, and our staff and student families interacted with one another. The day was a success in achieving our goal of educating the children on what a healthy lifestyle looks like.

Star Students:

Ibrahim(pictured right-top) was awarded student of the year for his excellent attitude, his willingness to lead and his model of strong behavior for the other students in our program.

Fatima (pictured right-middle) joined our program just a few months ago, but has made quite a difference. She is always smiling, kind and respectful, and exhibits a great work ethic to her classmates.

Madina has been a strong student in our program this year. She has always finished her homework, has a great attitude, and raised her reading level by five letters. She is one of our strongest readers now!

We are so proud of the hard work our students put in to improving in both academics and behavior this year!

Upcoming Events: OSU Dental Bus– June 12th-16th, July 3rd-7th

Summer Program– June 12th– July 20th

Field Trips to Skate America, Scioto Audubon Park, and many others!

We appreciate your care and support of our program and our students.

Thank you!
