

# Stiles Elementary

Columbus State Community College ESL Afterschool Communities

## Field Trips & Parties

1

**CHA Bowling /  
Lights on After-  
school Event**

be responsible  
be respectful  
be ready

## Welcome Back, Wildcats!

**Programming began again on Monday, September 25th. Since day 1 our students have been working on modeling the Wildcat Way: Be Responsible, Be Respectful, and Be Ready using Responsive Classroom Values! Every item on our daily agenda is filled with fun, friends, and modeling what it looks like to be a role-model Wildcat! Students receive daily youth development lessons on top of their academics and we are seeing our students flourish! We are excited to continue to see students grow throughout the school year!**

2

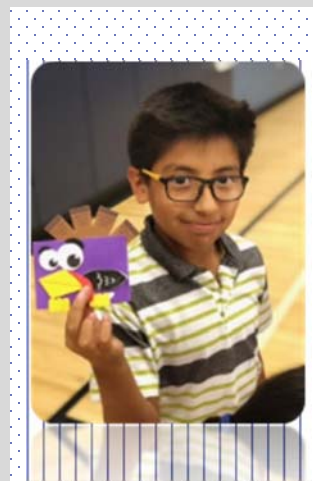

**Halloween  
Party**

3

**Thanksgiving  
Party**

## Guest Readers

Over the course of the last three months our program has hosted three “Guest Readers”. Each visitor plays a vital role in our community. In October Cathy Johnson, the Southwestern City School Board President, joined our students to read to them and tell them about the work she does for their school! In November we had two guest readers; State Senator Stephanie Kunze and Librarian Jessica Smith.

## New Programs

We are excited to say that this school year we have implemented some new programming! Students are loving the new OSMO system, which provides physical play on the iPads in math, reading and art. OSMO allows students to connect a digital world with tangible manipulatives daily.

## Girls on the Run

This school year four of our afterschool students participated in Girls on the Run. Over the course of 10 weeks these girls trained and engaged in positive emotional, social, mental, and physical development lessons with their coaches. On Saturday, November 18th the girls headed downtown to run a 5K race and did an incredible job!

## UPCOMING EVENTS AT STILES

**December 14:** Holiday Partnership with Westland Area Library

**December 20:** Holiday Party

**January 25:** Field Trip to COSI

All of our students received an Awesome Award in their classrooms in November. Here Amira, Bryan, and Rodrigo proudly display their accomplishments.
