

**Map of  
Institutional Learning  
Goals and Outcomes  
Across  
the Arts and Sciences Curriculum**

Revised February 2023

---

Mapped from the Associate of Arts and Associate of Sciences Curriculum as defined by the 2021-2022 Program and Course Catalog Updated 12/17/2021

\*Curriculum - Please note this is a static version of our catalog, last updated 12/17/2021. For the most accurate/current version of program requirements and course information, refer to <https://catalog.csc.edu>

## **Mapping Institutional Learning Goals (ILGs) Across the Curriculum:**

- The map on the following pages identifies the Institutional Learning Goals (ILGs) common to a set of classes within a category of curriculum for the Association of Arts (AA) and Associate of Science (AS) degrees.
- The courses within a category of curriculum must assess the ILGs that are assigned to that grouping of courses. This ensures that students who take a class from a particular category of curriculum will be assessed on certain Institutional Learning Goals (and outcomes).
- Faculty can assess additional ILGs that have not been mapped to the course, but must first get approval from their department curriculum committee to ensure all procedures are followed correctly:
  - Identify the additional ILG on the master course (primary) syllabus
  - Include the ILG in the 4- year plan in the Assessment Report Form
  - Must be on record with the Arts and Sciences Division Assessment Committee.

See example on next page.

## **Mapping Institutional Learning Goals (ILGs) Across the Curriculum:**

In the example below from the Associate of Arts curriculum, we see that students can choose two

classes from the category "Natural Sciences."

The first group of classes include the *Biological Sciences*. All classes in this category must assess **ILG #1** (Critical Thinking), and **ILG #4** (Scientific Literacy).

- This ensures that no matter which class students take from this grouping, the college will be able to gather data on student learning with respect to *critical thinking* and *scientific literacy*.

These assigned ILGs must be:

- Properly presented in the assessment statement on primary syllabus and
- Included in the four-year assessment plan reported to the Arts and Sciences Division Assessment Committee.

<b>Natural Sciences (Choose two)</b>		<b>Units: 7</b>
One course must have a lab ( <sup>N</sup> = no lab)		
<b>Biological Sciences</b>		<b>Units: 0</b>
<b>ILG #1, #4</b>		
ANTH	Introduction to Biological	3
2200	Anthropology <sup>N + ^</sup>	
BIO	Fundamentals Human	3
1101	Anatomy & Physiology <sup>N +</sup>	
BIO	Human Biology <sup>+</sup>	4
1107		
BIO	Intro to Biology <sup>+</sup>	4
1111		

Let's say in this example above, Professor C teaches ANTH 2200 and wants to assess ILG #3 (Quantitative Literacy). They can assess this additional ILG but must address this with their department assessment committee to make sure they follow all procedures that include:

- adding the ILG to their primary syllabus and
- reporting this additional ILG in the beginning of their four-year assessment plan to the department and division assessment committee (in their annual assessment report).

## Institutional Learning Goals (ILGs):

The college has identified the following eight college-wide learning Goals and Outcomes to be the central focus of Assessment for student learning:

### **Institutional**

#### **Learning Goals (ILGs)**

#1. Critical Thinking	Apply critical and creative reasoning, including diverse perspectives to address complex problems.
#2. Ethical Reasoning	Identify, assess, and develop ethical arguments from a variety of perspectives, and engage in the ethical use of technology and information.
#3. Quantitative Skills	Demonstrate mathematical and statistical knowledge through solving equations, interpreting graphs, and being able to work with other forms of numeric data.
#4. Scientific Literacy	Identify and apply the use of science/scientific methods to advance knowledge in contemporary society.
#5. Technological Competence	Utilize knowledge and skills to properly incorporate technology into one's discipline.
#6. Communication Competence	Demonstrate the ability to communicate effectively in both written and unwritten forms.
#7. Cultural and Social Awareness	Recognize democratic values and civic/community responsibilities associated with a socially, politically, economically, and historically diverse world.
#8. Professional and Life Skills	Recognize and/or demonstrate skills and activities that enhance professional values, teamwork, and cooperation.

# Programs - Degrees and Certificates

## Associate of Arts - AA Degree

The Associate of Arts degree is designed to satisfy the first two years of a bachelor's degree in majors that don't require advanced math or science. Formal agreements have been made with colleges and universities which allow for coursework taken in the Associate of Arts degree program at Columbus State to transfer and apply to a bachelor's degree.

### Associate of Arts Degree Graduation Requirements:

1. All students must satisfactorily complete at least 61 credit hours of approved courses, a minimum of 20 hours of which must be completed at Columbus State. Approved courses are designated below. Satisfactory completion requires a final grade of A, B, C, or D. Transfer credit may be awarded for courses in which a "C" or better has been earned at other accredited institutions, or a "D" or better from public Ohio institutions, if the course level equivalencies have been approved by the Dean of Arts and Sciences. Courses listed in the "Transfer Module" or "Transfer Assurance Guides" of an Ohio college have been pre-approved for credit toward a Columbus State degree. Credits by examination, proficiency credit, non-traditional credit, and transfer credit do not apply toward meeting residency credit hour requirements.
2. All students must attain an overall grade point average of 2.0 or better for all college level courses completed at Columbus State. Grade point averages are calculated on the following scale: A=4, B=3, C=2, D=1, E=0. Number equivalencies are not assigned for grades other than these.
3. All students must complete the following 30 hours of General Education Requirements, as well as 31 hours of additional coursework as specified on the following pages.
4. All students must file a completed "Petition to Graduate" form with Office of the Registrar by the published deadline date for the intended semester of graduation.

### Resources for Success:

#### 1. Arts and Sciences Advising

Union Hall, Room 048K

For walk-in hours and online appointment scheduling, visit [www.csc.edu/services/advising/asadvisors.shtml](http://www.csc.edu/services/advising/asadvisors.shtml).

#### 2. Degree Audit (available through CougarWeb)

This online tool helps students monitor progress toward degree completion. The Degree Audit contains the following information: courses in progress, courses completed, courses transferred from another college, courses needed, number of credits completed, number of credits needed, and grade point average.

#### 3. Transferology, [www.transferology.com](http://www.transferology.com)

This free, web-based resource allows transfer students to plan the best path to achieving academic and career goals based on reliable transfer information provided by participating Transferology colleges and universities. Set up a free account and find out how Columbus State courses transfer and apply to programs at select colleges and universities.

### Associate of Arts Degree Requirements

**PLEASE NOTE:** Students are responsible for knowing and following all prerequisites. Use the CSCC catalog to identify prerequisites for all courses. Self selection of courses or other changes to the approved degree program could adversely affect graduation, transfer to a 4-year institution and financial aid.

**+ indicates Ohio Transfer Module (OTM) course**

**^ indicates Transfer Assurance Guide (TAG) course**

**See last page for OTM/TAG explanation.**

**Ohio Transfer Module (OTM+) Units: 0**

The Transfer Module represents a body of knowledge and academic skills common across Ohio colleges and universities. Transfer Module approved courses are general education courses and are guaranteed to transfer and apply toward related general education subject areas at Ohio's public colleges and universities. Students completing the Associate of Arts or Associate of Science degree have also completed the Ohio Transfer Module. For more information, visit:

## Associate of Science - AS Degree

The Associate of Science degree is designed to satisfy the first two years of a bachelor's degree in majors that require advanced math or science. Formal agreements have been made with colleges and universities which allow for coursework taken in the Associate of Science degree program at Columbus State to transfer and apply to a bachelor's degree.

### Associate of Science Degree Graduation Requirements:

1. All students must satisfactorily complete at least 61 credit hours of approved courses, a minimum of 20 hours of which must be completed at Columbus State. Approved courses are designated below. Satisfactory completion requires a final grade of A, B, C, or D. Transfer credit may be awarded for courses in which a "C" or better has been earned at other accredited institutions, or a "D" or better from public Ohio institutions, if the course level equivalencies have been approved by the Dean of Arts and Sciences. Courses listed in the "Transfer Module" or "Transfer Assurance Guides" of an Ohio college have been pre-approved for credit toward a Columbus State degree. Credits by examination, proficiency credit, non-traditional credit, and transfer credit do not apply toward meeting residency credit hour requirements.
2. All students must attain an overall grade point average of 2.0 or better for all college level courses completed at Columbus State. Grade point averages are calculated on the following scale: A=4, B=3, C=2, D=1, E=0. Number equivalencies are not assigned for grades other than these.
3. All students must complete the following 30 hours of General Education Requirements, as well as 31 hours of additional coursework as specified on the following pages.
4. All students must file a completed "Petition to Graduate" form with the Office of the Registrar by the published deadline date for the intended semester of graduation.

### Resources for Success:

1. **Arts and Sciences Advising**  
Union Hall, Room 048K

For walk-in hours and online appointment scheduling, visit [www.cscs.edu/services/advising/asadvisors.shtml](http://www.cscs.edu/services/advising/asadvisors.shtml).

### 2. Degree Audit (available through CougarWeb)

This online tool helps students monitor progress toward degree completion. The Degree Audit contains the following information: courses in progress, courses completed, courses transferred from another college, courses needed, number of credits completed, number of credits needed, and grade point average.

### 3. Transferology, [www.transferology.com](http://www.transferology.com)

This free, web-based resource allows transfer students to plan the best path to achieving academic and career goals based on reliable transfer information provided by participating Transferology colleges and universities. Set up a free account and find out how Columbus State courses transfer and apply to programs at select colleges and universities.

### Associate of Science Degree Requirements

**PLEASE NOTE:** Students are responsible for knowing and following all prerequisites. Use the CSCC catalog to identify prerequisites for all courses. Self selection of courses or other changes to the approved degree program could adversely affect graduation, transfer to a 4-year institution and financial aid.

**+ indicates Ohio Transfer Module (OTM) course**

**^ indicates Transfer Assurance Guide (TAG) course**

 PHYS 1251 Calculus-Based Phys II<sup>+</sup> ^ 5

**Additional Math or Science** **Units: 0**

Take one additional course Choose from previously listed Transfer Module (+) courses in the following subjects: Anthropology (ANTH) Biology (BIO) Chemistry (CHEM) Geology (GEOL) Math (MATH) Physics (PHYS) Statistics (STAT) Or one of the following:

**Biological Sciences ILG #1, 4** **Units: 0**

BIO 1107 Human Biology<sup>+</sup> 4  
 BIO 1111 Intro to Biology<sup>+</sup> 4  
 BIO 1125 Plant Biology<sup>+</sup> 4  
 BIO 2300 Human Anatomy<sup>+</sup> 4  
 BIO 2302 Human Pathophysiology<sup>+</sup> ^ 3

**Physical Sciences ILG #1, 4** **Units: 0**

ASTR 1161 The Solar System<sup>N +</sup> 3  
 ASTR 1162 Stars and Galaxies<sup>N +</sup> 3  
 CHEM 1113 Elements of Organic/Biochemistry<sup>+</sup> 4

GEOG 2300	Introduction to Physical Geography <sup>N + ^</sup>	3
GEOG 1101	Introduction to Earth Science <sup>+</sup>	4
GEOG 1151	Natural Disasters <sup>N +</sup>	3

**Additional Requirements to Complete Degree** **Units: 26**

To complete the Associate of Science degree, take additional credits (minimum of 26) to meet the 61 semester hours requirement. Choose from the following or additional courses from the previous page. Utilize degree Audit (accessible through CougarWeb) to determine how many additional credits are needed to achieve the overall 61 semester hours required. If you are uncertain about course selection, consult an Arts and Sciences Advisor for suggestions.

**Recommended Elective: ASC 1190 Critical Thinking for Arts & Sciences (1 hr)**

**Accounting ILG #1,3** **Units: 0**

ACCT 2211	Cost Accounting <sup>^</sup>	3
ACCT 1212	Managerial Accounting <sup>^</sup>	3

**Anthropology ILG #1,4** **Units: 0**

ANTH 2235	Introduction to Forensic Anthropology	3
-----------	---------------------------------------	---

**Ohio Transfer Module (OTM+) Units: 0**

The Transfer Module represents a body of knowledge and academic skills common across Ohio colleges and universities. Transfer Module approved courses are general education courses and are guaranteed to transfer and apply toward related general education subject areas at Ohio's public colleges and universities. Students completing the Associate of Arts or Associate of Science degree have also completed the Ohio Transfer Module. For more information, visit: <http://www.ohiohighered.org/transfer/transfermodule>.

General Chemistry I 5

**Transfer Assurance Guides (TAG^)**

**Units: 0**

In addition to completing general education courses at any Ohio public college or university, students can also complete courses in their degree/major that have been pre-identified by the Ohio Board of Regents for transfer. These courses are described in the Transfer Assurance Guides (TAG) for many major/degree programs. TAG courses are guaranteed to transfer and apply directly to the major. For more information, visit: <http://www.ohiohighered.org/transfer/tag>.

Total: 69
