**CurricUNET – Program Deactivation**

To END a program you must create a Program Deactivation template which will be routed through the curriculum review and approval process.

Please provide a "Justification for Program Deactivation" that explains what data and resources were used to determine that deactivation was appropriate. Additionally, include what year and semester you would like to have the program removed from the Admission Application and when (year and semester) you would like the program to officially be closed.

Remember that you will need to provide a description (attachment) of how you have mapped any new or existing students through to completion. This mapping should allow you to account for all students with an "Active" program of study that matches the one you are deactivating or any certificates that are a part of the degree.

If you are deactivating certificates and a degree, then you will need to complete a "Deactivation" for each program of study you are intending to end.

To create a proposal, follow the steps below.

1. Select Proposal Type

2. Complete Minimum Requirements

3. Review and Submit

The fast- paced field of Criminal Justice offers a wide variety of career paths for those interested in this area. Students may consider the fields of probation, parole, institutional corrections, victim's advocacy, crime prevention, and law enforcement at the state, local and federal level as their focus of study and training for future employment.
The Criminal Justice Major degree program prepares students for a variety of careers in federal, state or local criminal justice agencies. Groups of electives are designed to provide additional instruction in individual area of interest: Homeland Security, Crime Scene Investigations, Victim Advocacy, and Crime Prevention.
