- **Employee Appreciation Recap**
 - Both events were great. Dr. Harrison was pleased with how both events turned out. Thank you to everyone who volunteered. We did have leftover food, but we were able to send a lot of food to an organization that Dr. Terrence Brooks is involved with. The food was used to feed others who have food insecurity.
 - Special Acknowledgements to Tommy Tucker for making sure all the food was where it needed to be and cooking. Also, to Tracy Thornton for her help with organizing.
 - Some feedback we received is having more lines to get food. Possibly snacks, make sure that Faculty know they are invited. Have unions involved in planning committee and to send communication to their areas.
 - We did over 300 vaccinations at Columbus and 50 at Delaware
- **Leadership Circle**
 - Kristen sent emails to all part-time regular and full-time employees. Kristen has received questions about the discussion being recorded. We do not want to do that because we want to create a space for people to share about their own leadership experiences.
 - There has been discussion about bringing in Outside leadership to talk at these events. Right now, we like the plethora of leaders we have right now.
- **Committee Report Outs:**
 - Bylaws Committee- had a meeting scheduled for this week but due to appreciation event they will be meeting next week. Near the end of revisions. The document has been reformatted to make it easier to follow and some grammatical changes. Will present to the council next month. Bylaws will send proposal to exec team first and they will send out to the committee before next month's meeting.
 - Communications Committee- Hot Cards were printed and distributed at our events.
