## FINANCIAL AID AWARD OFFER AND BUDGET REVIEW TOOL

## Create a budget for the full school year.

Live with family or get an apartment? Home cooking or eating out? New books or used books? Think about ways to keep your costs down. Then use the table below to realistically estimate what you'll need for the full school year.

| Expense |  | Example |
| :--- | :---: | :---: |
| Tuition and Fees | Your Estimate |  |
| Housing/Rent | N/A (live with mom) |  |
| Food | $\$ 1,500$ |  |
| Books/Supplies | $\$ 500$ |  |
| Utilities/Phone | $\$ 600$ |  |
| Credit Card and Other Bills | $\$ 0$ |  |
| Entertainment | $\$ 1,200$ |  |
| Clothing | $\$ 600$ |  |
| Miscellaneous | $\$ 500$ |  |
| Total Expenses | $\$ 10,900$ |  |

## Know your resources.

Discuss what your family can contribute and then aggressively go after "free money" options. Add up your total resources from savings, grants/scholarships, and work.

| Funding Source |  | Example |
| :--- | :---: | :---: |
| Savings for Education | $\$ 0$ |  |
| Income from work | $\$ 5,000$ |  |
| Columbus Promise Educational Stipend | $\$ 1,000$ | $\$ 1,000$ |
| Overage from Pell Grant | $\mathrm{N} / \mathrm{A}$ |  |
| Other grants or scholarships | $\$ 500$ |  |
| Other grants or scholarships | $\$ 0$ |  |
| Total Funding | $\$ 6,500$ |  |

## How much more will you need?

Subtract total resources (Box B, above) from total expenses (Box A, above). Enter the total in Box C, below. If your resources can cover your expenses, you're all set. If not, you'll need a way to make up the difference (reducing expenses, working more hours, applying for more scholarships, learning about paid apprenticeship opportunities, taking student loans, etc.).

|  | Total Expenses | Total Funding |  | Remaining Need |  |
| :--- | ---: | :--- | ---: | :--- | ---: |
| Example | $\$ 10,900$ | - | $\$ 6,500$ | $=$ | $\$ 4,400$ |
| Your Estimate |  | - |  | $=$ |  |
