

HOW MANY CLASSES SHOULD I TAKE EACH SEMESTER?

- 12 credit hours = full time
 - The number of credits registered equals roughly the number of hours spent in class each week (NOTE: Courses with labs or clinicals/practicum require additional time per week)

- Weekly class hours x 2-3 hours = weekly study hours

- Strive for balance
 - Consider your obligations - work, family, school, other
 - For example: If you work 30 or more hours per week, consider taking a lighter load -- take a maximum of 2-3 courses per semester
