

Greetings College Credit Plus Partner School Districts,

Due to COVID-19 (Coronavirus) safety concerns the physical Columbus State Bookstore location will be closed for Autumn Semester 2020. However, the bookstore website bookstore.csc.edu remains open and this site is fully capable of servicing all CCP students.

Students must have approved funding for orders to be processed. The Columbus State Bookstore will send a notification to students when their bookstore voucher is open and available to use online. Autumn Semester accounts will begin opening August 18, 2020. See [Bookstore CCP page](#) for more information.

Since the bookstore location is closed at this time, the textbook and calculator collection by the bookstore for participating schools and textbook buyback for our partners who collect textbooks from students in their embedded courses will be postponed until further notice. The bookstore will communicate any outstanding books from Spring and Summer semesters 2020 to participating school districts. For those schools who collect books from their students and work directly with the bookstore to coordinate buyback opportunities, please continue to work with the bookstore.

Please note this information may be subject to change if there are updates at a federal, state or county level as a result of the pandemic. Our team will proceed with an understanding and flexible approach to the work. If you have any questions don't hesitate to contact us for assistance.

Thank you for the partnership.

Warm Regards,

Lauren Jones | Director, CCP Curriculum
