

Career Fair Requirements

Career Fairs will be open to all employers offering degree-related employment opportunities for Columbus State Community students. Career Services reserves the right to limit participation to 3 professional associations per year.

Career Services reserves the right to limit the number of booths represented by the same industry per fair day, as we strive to achieve variety for our students from various degree programs.

Should a registered Career Fair employer participate in any prohibited recruitment activity on campus as outlined in our Employer Terms and Conditions, Career Services reserves the right to cancel registration and/or ask said employer to leave the fair premises and/or refuse registration for future fairs.

Should an employer cancel their registration, Career Services requires at least 2 weeks' notice prior to fair day. Registrations cancelled within 2 weeks of the fair may not be eligible for future events.

On fair day, employers are required to limit recruitment activities to their table area. Solicitation of students outside of this area is not permitted.

All career fair employers must meet the criteria as outlined in the Employer Terms and Conditions. Career Services reserves the right to cancel or deny the registration of any employer who does not meet these criteria.
